Dear all at Pure O₂,

I hope everything is in order with the wonderful O₂ concentrator. It is so conveniently portable - we carried it everywhere on holiday and - although my husband did not need to use it very much, it was very reassuring to know it was there if need be. He has only recently been prescribed oxygen therapy so it was a bit daunting to decide if we should be going ahead with our family holiday plans or not. We want to emphasise our thanks to you all for the most helpful and thoughtful way in which you helped make it possible.

We all had the most wonderful holiday together - really important after Alastair having been so ill - but, best of all, he has really thrown on it and looks and feels so much better. We are so grateful. Yours Lawrence Grant.
